THE AMOR.—It is evident, that, although unsuccessful in its attempt to carry off a slave of Turkey, Russia has been quite fortunate in having the diplomatic mission of the Emperor of China, Mr. Li, who has been appointed to the post of minister to the United States, and who is now in the city, having been so successful in negotiating the recent treaty with the United States, as well as his previous services in that position. An article in a recent number of the "Review" has been devoted to the credit of Mr. Li, and the article is a very valuable one, as it contains a full and complete account of his life and services. It is a pity that the article is not more widely known, as it is a very valuable one, and it is a pity that the article is not more widely known, as it is a very valuable one.
